Masonic Lodge Celebrates 50th Anniversary

Over one hundred Masons from many parts of Alberta assembled in Coleman on Friday, April 5th, to assist Summit Lodge No. 30 in commemorating the Lodge's institution in April, 1907. Present from the Grand Lodge of Alberta were the Grand Master Ross S. Sheppard of Edmonton, the Deputy Grand Master Sam Bannan of Blairmore; the Grand Wardens, D. D. McQueen and D. Little; Grand Secretary E. H. Rivers.

A service of thanksgiving in the lodge room marked 50 years of service to the community, paid respects to the charter members, revived interesting memories of the past and looked to a future of greater service in Coleman. Masons gathered from many centres throughout the province, coming from Edmonton, Morinville, Calgary, Taber, Lethbridge, Fort Macleod, Pincher Creek and the Pass towns to participate in the celebration.

Following the meeting the guests assembled at a banquet including Mayor N. E.

Ahouseafy and Councillors Ramsay, Dibbie, Wavrean, Toppiano and Bond. After enjoying a splendid meal set out by the O. E. S. several toasts were drunk: to Our Visitors, by A. E. Graham, D.D.G.M., responded to by the Grand Master, Ross S. Sheppard; Town of Coleman by John A. McDonald, responded by Mayor Ahouseafy; Summit Lodge by Sam Bannan, D.G.M., responded to by Robert R. Pattinson; to the Charter Members by Roy Upton, responded to by the one remaining charter member, J. O. C. McDonald.

A pleasing and almost unique feature of the evening was the presentation to J.O.C. McDonald of a 50 year jewel, pinned on him by his son John McDonald.

The proceedings throughout reflected the deep feeling of thanksgiving for a half century of usefulness to the community, pride in the surmounting of many obstacles, and a refreshingly hopeful outlook for an even more useful future.

Pass Delegates At Taber For Scout Convention

Saturday several delegates from Coleman and Blairmore attended an all-day session on Scouting and Scouting problems which was held in the Civic Centre at Taber. About 100 people attended this gathering from all over Southern Alberta. Those attending from the Coleman area were Mr. and Mrs. W. Kubicek and Mr. and Mrs. Gordon Dunford. Those from Blairmore were Art Williams and D. Korner.

The session, presided over by Ron Vincent of Taber, was divided into groups, and each discussed better ways to improve and enlarge Scouting activities in Southern Alberta.

Several Chief Scoutmasters and Commissioners attended also. The Pass delegates felt this session had helped considerably in ironing out some of their own problems as well as finding out new ways to improve their own troops.

A banquet in the evening concluded a very informative day.

Goulding First Bellevue Mayor

Bellevue's first village council held an organizational meeting on Saturday night when councillor Ernest Goulding was named mayor of the newly-formed village.

Councillors Donald Hayden and J. Christie were sworn into office. Present at the meeting was E. Kennedy of the department of municipal affairs, who assisted the new council organization.

It was agreed that the next meeting would be held April 8 and arrangements were made to use the present school office for temporary quarters until council chambers can be arranged for.

Acting secretary C. Ritchie was advised to advertise for a permanent secretary for Bellevue. At the conclusion of the meeting the resignation of Councillor Joseph Christie was submitted and will be dealt with at the next meeting. If necessary, nominations will be called for.

Nurses Elect Officers' Slate

The Crows Nest Pass Chapter of the AARN met in the Crows Nest Pass Municipal Hospital recently when a new slate of officers were elected to office.

To head the nurses this term are President, Mrs. Alice Vajprava; vice-president, Mrs. Agnes Balog; secretary, Joan Dunford, and treasurer, Mrs. Anne Murdoch.

Following the election a number of the nurses volunteered their services to assist with the Red Cross Blood Donors Clinic held at the hospital this month.

The next meeting of the Nurses' Association will be held at the home of Mrs. Anne Murdoch of Coleman on April 11.

Volunteer Fire Brigade Receive Award

The Coleman Volunteer Fire Brigade are the proud owners of an Award of Merit from the National Fire Prevention Commission for their help in preventing and fighting fires in this area.

These awards are given annually in towns and cities across Canada. Coleman received theirs for the best brigade in their population category.

Fire Chief J. Kinnear, Jr., stated that the award would probably be presented to the Coleman Brigade at the annual July 3rd Home Company conventions by the Provincial Fire Commissioner.

Bunfam Drugs Get New Druggist

From Regina, Sask., Mr. Russell Floodstad has arrived to take over the duties of druggist at Burlman's Drug Store here in Coleman.

He is replacing Mr. Les Parsons who has been transferred to the Blairmore Pharmacy, formerly operated by John Grey.

Mrs. Floodstad and daughter will take up residence in Coleman very shortly.

Hospital Auxiliary Plans Project For Year at Meeting

The Ladies' Auxiliary to the Crows Nest Pass Municipal Hospital held a meeting Wednesday evening attended by 21 members. Three new members from Bellevue and two from Blairmore were welcomed into the active group.

Owing to the resignation of Mrs. Fred Utley as recording secretary of the organization, Mrs. Fred Faddgett of Bellevue was appointed to take over these duties.

New Project

As a project for the season the ladies agreed to purchase a utility table and oxygen carrier as further equipment for the hospital. Arrangements were also completed to have a committee on hand to assist the Red Cross with the Blood Donors Clinic to be held at the hospital this week.

Two knitted baby suits were handed in and placed on display for sale in the hospital showcase. A vote of thanks was extended by the Auxiliary to a number of ladies who are non-members and who have taken a good deal of time knitting baby suits and other articles contributed to the Auxiliary. It was reported that a good amount of sewing of sheets and pillow cases had been completed by the Auxiliary.

Following lunch the draw for the mystery box donated by Mrs. C. Ritchie of Bellevue, was made, and it was won by Mrs. Anna Williams of Blairmore.

Jobs Available Through Chamber Of Mines

Recent information reaching the editor's desk show that there are job opportunities available in northern mines, and applications may be obtained from the Chamber of Mines.

Here are some of the facts pertaining to this opportunity:

Transportation paid from Edmonton to job-site and deducted from your wages; this amount returned to you if you stay 200 days; out-going transportation guaranteed at end of 300 days. If you quit or are discharged before this time you pay your own transportation.

Wages — Laborers depending on location, range from \$1.25 to \$1.61 per hour; tradesmen and heavy equipment operators \$1.70 to \$2.25 per hour. Working hours — 8 hour 6-day week except in B. C., which is 44 hour week.

Accommodation in good bunkhouses with two men to a room, all bedding supplied. Very little accommodation for married personnel the first year. Cost of room and board varies from \$2.00 to \$3.45 per day depending on the mine.

AGE OF DISSENT

In Westport, Conn., 62 Junior members of the Westport Women's Club resigned in protest after a regulation was passed barring junior membership to anyone over 35.

Pass Delegation Meets Provincial Government on "Coal Problem"

The depressed coal industry was the subject of a brief presented before the Alberta government on Wednesday, April 3 by a Pass delegation. A few days before this brief was presented a combined body comprised of Union, Mine management and Board of Trade members gathered to discuss the decline in the coal industry, and what measures could be taken to get assistance for the industry. For a considerable time mines in Blairmore and Bellevue have worked only a one-day-week, mines in Coleman have been down to the one-day but an average of two or three days have been worked the last few weeks.

The delegation had been informed earlier by the Hon. Milton Gregg, federal minister of labor, that no assistance could be given at the present time. William Kovach, MLA, also reported in the provincial house that he had written Mr. Gregg and had received the answer "There is hope that a solution may eventually be found" to help Alberta coal.

Federal Mines Minister Prudham had also been contacted by the delegation in regards to assisting the Pass mines.

A report by the delegation stated that they had been well received by Premier Manning and his cabinet and was assured that their problems would receive urgent attention by the government. The delegation feels that their efforts will bring some action to alleviate the conditions plaguing the coal industry.

The last week saw a government committee comprised of Mr. J. Ferguson, of the Provincial Department of Labor; Mr. J. A. Dutton, Director of Mines, and Mr. W. A. R. Res, Director of Relief, gathering information on conditions here in the Pass, which they will report directly to the cabinet.

Several meetings were held in the Pass with interested parties on the coal problem.

The first meeting was scheduled for Monday evening, April 1, but due to the lateness of the arrival of this government committee no meeting was held.

Other meetings were held but due to no advance notice of time or place, all parties interested, AND this includes the Press — were not informed so as a clear and concise picture of the problem could be presented.

The decline in the coal industry has created an unsettled state of affairs especially so with the mine worker. In the last few years a considerable decline has taken place in the working force, with the younger element finding jobs in other parts of the province, and moving their families from the Pass. A further exodus is expected this spring as no hope is held

by the workers of an improvement. Considerable numbers are now seeking employment in other industries which will bring them security.

The delegation mindful of this situation are trying their best to have the coal industry stabilized so as to retain these workers.

Members making up the delegation from the Pass were—

Chairman, Mayor Ahouseafy; the Union secretary, J. Ramsay, both of Coleman; Mayor William Grey of Blairmore; William Kovach, MLA, from Calgary district office of the United Mine Workers of America were vice-president J. Stokluk, and executive member J. Susnar.

THIS WAY TO EGRESS

In Fredericton, N.B., the Daily Gleaner printed an ad for the Bill Lynch Shows, a carnival, touting "An Extra Added Attraction, a close-up view of that strangest of all living creatures—the Two-Legged Man."

TAKE OVER

Youth is going to tackle the things tomorrow that old age failed to accomplish today.

Bill Kerr Wins Special Scholarship

Bill Kerr, who has been continuing his studies at Columbia University, in New York City, sends word that he has won a Special Scholarship of \$2500.00 from the National Research Council of Canada, which is tenable at a University outside the country. He has also been awarded an American Oil Company Fellowship of \$2500.00 for Columbia University. Since only one such award can be accepted, Bill has chosen to take the Canadian Scholarship, leaving the Fellowship award open for another student.

Upon University closing, Bill will spend the summer in North, Central Nevada, with a group of students of Columbia University, under Dr. Marshall Kay, where they will do Geological work.

This is the second time Bill has won an award, one last year and again this year. Congratulations Bill. Coleman is proud of you.

Elks Relinquish Large Bingo Jackpot

One of the largest crowds filled the Elks hall on Friday evening to try and win the \$130 jackpot. However the lucky winners of the jackpot, which they split were Mrs. F. Henriet and Mrs. Alan Phillips.

With Good Friday falling on the night of the next Bingo, April 16, the Elks will hold their bingo on the Thursday evening, April 18. The jackpot at this time will be \$70.00.

Other lucky winners of beautiful prizes were: Groceries, S. DeMartin. Club bag, Mrs. E. Harrison. Sheets and pillow cases, Mr. W. Aebli, Blairmore.

Hostess chair, Mrs. H. Gate. Cutlery set, Mrs. H. Newton of Bellevue.

\$25 cash, Mrs. R. Perry. Fishing rod, Mrs. J. Kubik. Tri-light lamp, Y. Kismet, of Crows Nest.

Groceries, A. Vajprava, Blairmore. Deep fryer, Mrs. I. Caroe. 25 gallons gas, A. Gettsman.

Consolation winners were J. Walker, O. Sudworth, N. Johnson, H. Caroe, and C. Haslett.

Former Coleman Men Wins Camera Trophy

Evan Ghahai, formerly of Coleman, and now of Lethbridge, was awarded the 'print of the year' trophy in a display sponsored by the Lethbridge Camera Club a few days ago.

Second and third places went to Neil Kloppenberg and William Fruit, of Lethbridge. Judges were Harold Long, Orville Brunelle and Ernest Riehm.

Mr. Ghahai is well known here in Coleman, having operated a photo shop for years.

Pouring over maps of the Macleod Federal Constituency, checking the many polls and digging into the multitude of jobs that come with a Federal Election are two stalwarts of the Progressive Conservative party — Doug Galbraith of Vulcan and Lawrence E. Kindt of High River. Mr. Galbraith has been appointed campaign manager for Lawrence Kindt, the Progressive Conservative candidate for the Macleod Riding. Headquarters of the organization are at High River.

Building hints and ideas

Finding suitable containers in which to mix small amounts of glue or paint or other materials is difficult—and often expensive if the material ruins the container. By bending up four sides of a small piece of aluminum foil, however, one gets a little leak-proof tray of any size. It does the job, then is thrown away.

Be sure all volatile and inflammable liquids like solvents, torch fuels, gasoline, etc., are stored in metal cans with non-leaking tops. Such liquids stored, heat, and burst the container. If in glass bottles may expand from a spark or open flame is near by, you may end up with a serious fire.

For a smoother, crisper cut on glass always lubricate the wheel of the glass cutter by dipping it into some kerosene or varnolene before each cut. Use a straight edge to guide you, and bear down with moderate pressure, scoring the entire line in one swift stroke.

When pouring liquids such as turpentine or shellac from square gullion cans having a spout in one corner, hold the can so that the opening or spout is at the top when the can is in pouring position. Air will be able to enter freely above the liquid giving a steady, easy-to-control stream.

The easiest way to remove a decal without damaging its surface is to cover it with a wet wash cloth and then press a hot iron over the cloth. Within a few minutes the steam will soften up the old decal, enabling easy removal.

—The Herald, Hanna, Alta.

Traffic offenders

There is a growing feeling that anyone convicted of handling a car under the influence of liquor should have his driving licence suspended for a period, which is often done now, and his car impounded, which is rarely done now. If he is caught driving while his licence is under suspension, a full sentence might be made mandatory.—The Advocate, Red Deer, Alta.

SLEEP TO-NITE
Sedition taken according to directions is a safe way to induce sleep or quiet the nerves when tense. \$1.00 All Price 25¢ at 25¢ 10¢, Toronto 5.

ICEBREAKER—This photo of the icebreaker Ernest Lapointe was taken through the bow hawser of her companion, the d'Iberville during their present channel clearing job down the St. Lawrence River to open the Port of Montreal.

On The Side : E. V. Durling

What United States naval commander said: "Don't give up the ship?" It was, of course, Capt. James Lawrence, commander of the USS Chesapeake, who voiced the aforementioned immortal words on June 1, 1813, in a battle with the British ship Shannon off the coast of Massachusetts. Capt. Lawrence's complete order was: "Keep the guns going! Fight her till she strikes or sinks! Don't give up the ship!" These were the gallant commander's dying words. He was 32 years of age at the time.

CRIME DOESN'T PAY

Who was the meanest thief you ever heard of. One of the meanest, I think, was a man who confessed he had made a living for 48 years robbing church poor boxes, following his arrest in Chicago. Said he averaged \$20 a day. In Brooklyn, a man was arrested for stealing candy from a baby. He had snatched a lemon stick from the hand of the child. However, the cops in mean crooks was the man in St. Louis who was arrested for robbing the cup of a blind man.

SCOTCH ARE AGAINST IT

"Scotch and soda" is an English idiom. The Scotch are against it because they claim it injures the whisky. A Scot favors taking his whisky straight with a drink of water following it down. The Irish originated both the kilt and the bagpipes. I note it stated. That's wrong. The Romans originated the kilt, while Chinese originated the bagpipe. However, the Irish had both the kilt and the bagpipe before the Scots.

HOUSEWIVES AND HISTORY

How many different types of hair-do does your wife feature? Or have you noticed? Anyway, according to French history, Mme. Pompadour, originator of the pompadour, had 194 different ways of arranging her hair. A contest for title of "Most Glamorous Housewife" was recently held in England. Career women were not eligible, only women devoting themselves exclusively to home managing. Among the costumes the competitors donned for the contest were bikini bathing suits.

FOR LAUGH'S SAKE

How are you doing for laughs lately? Have you a friend or relative who frequently inspires you to indulge in hearty laughter? If so, you are greatly indebted to that person. It was the distinguished physician, Dr. Christopher Hufeland, who said: "Of all man's functions that affect the body and soul together, laughter is the healthiest. Laughter aids digestion, circulation, perspiration and has a refreshing effect on the strength of all organs. Are you a bathtub singer? If not, you should be, because it, also, is very good for one's health. Singing in the bathtub was originated by a lawyer, Lucius Aemilius Seneca, who was born B.C., died A.D. 65. In one of his philosophic essays, Seneca said: "A man likes to hear his own voice in the bath." It is very interesting to note that at a period when the average span of life was 31, Seneca lived to be 69. Men who sing in the shower or bathtub are usually very relaxed. And relaxation is a great aid to longevity.

"A TIP" ABOUT TAXI DRIVERS

This department is definitely opposed to tipping taxicab drivers or persons engaged in any other activity. We would like to see those engaged in all activities in which tips are involved paid a living wage. The tips could then be considered a bonus for unusual services. Also to be considered is the angle of the customer paying a high price for accommodations, food service, etc., and then in addition be expected to help the management take care of its payroll by extra payments in the form of tips.

FOR MEN ONLY

Now is the time for all good men to consider how their wives are going to look in bathing suits next summer. It takes just about six months to properly streamline a plump wife. First thing to do is to decrease the lady's intake of food. No seconds, of course. Then give a thought to the suggestion of baseball's immortal Ty Cobb for weight reduction. That is, have the person being streamlined drink a glass of buttermilk before each meal. That will decrease the appetite. In Brooklyn there is a barber shop which, although it adheres to a "hair cut only" policy insofar as its tonorialists are concerned, furnishes free all the necessities for customers who wish to shave themselves. Are you in the mail order business? Are you using pink reply envelopes? It is said this color envelope brings more replies than those of any other color. That fabulous American five, known as "The Harlem Globe Trotters", holds the basketball record for having played to the largest attendance. Also the record for the smallest attendance. The largest was 75,000 spectators. The smallest was one. The last named was the Pope. What is the world's record for the number of brothers in the army at the same time? During World War I there were 11 brothers named Planganin in the British army, most of them in the Gordon Highlanders.

Patterns

Blouse wardrobe

Add to your wardrobe with these blouses—a thrifty way to have many smart fashions for spring! Pattern 4660: Misses' Sizes 10, 12, 14, 16, 18, 20. VOLCANO TRAGEDY

One of the world's worst volcano tragedies was the frightful eruption of Mount Pelee in Martinique in 1902. Some 28,000 persons were killed.

The visual system of girls matures earlier than that of boys.

Wanted: hypo for a whale

Science seeks means to preserve mammals' meat from spoilage

By HENRY LESSENE

How fast does a gray whale's heart beat? Dr. Paul Dudley White, President Eisenhower's consulting heart specialist, has been trying to get an electrocardiogram of one—unsuccessfully so far, though he hasn't given up.

Now there's a chance for some inventive genius to come up with the most practical way of getting into a whale—an adult gray whale can weigh 50 tons—a "shot" of broad spectrum antibiotic that is produced by some of the smallest organisms known to man.

The need for such a method arose when the Canadian government recently gave the green light for use of an antibiotic process on the dominion's annual \$2 billion fish catch. This is the first time clearance for its use on fish has been given, although the Food and Drug administration in the United States about a year ago cleared its use on poultry.

Base ingredients of the process, known as Acronize and developed by United States food technologists, is aureomycin chlortetracycline. By halting bacterial growth, the antibiotic does the same thing, in principle, as refrigeration and when the two are used together, the result is not only fresher poultry or fish, but poultry or fish which stays fresh longer.

The process cleared for fish involves addition of about 4.5 grams of Acronize to the freezing cans (along with the necessary water) to make a 300-pound cake of ice. Cooking destroys any assayable trace of antibiotic.

The whale poses a special, whopping problem in itself, a challenge to scientists and researchers. Whale meat, on the North American continent, is used almost entirely in animal feeds. Even so, however, most of the whale meat is a loss.

That's because the whale is a warm-blooded mammal—and, in fact, like all mammals, originated on land—and is of great size. The chilling rates are so slow much of the carcass is an economic loss by the time it can be towed to the processing facilities on land.

You can't put a whale in a 300-pound cake of ice, or even a 3,000-pound block. Hence the intriguing and challenging problem: How can an aureomycin chlortetracycline solution be gotten into the whale carcass soon enough after harpooning to prevent the huge economic loss?

Researchers have not neglected the challenge, and have met with some success, but they still are trying to develop a better, easier and more practical way.

The work in this field has been done by Dr. Hugh Tarr and his associates at the Canadian fisheries experiment station at Vancouver, B.C. Actually, it was Dr. Tarr and his co-workers who made the earliest research findings in the sphere of antibiotic preservation of foods back in 1944, experimenting mainly with fish.

Recently they finally hit upon a

method of getting 50 grams of aureomycin chlortetracycline pumped into the carcass of whales along with the air that inflates the big mammals prior to towing.

Subsequently they have been contemplating a practical way in which the antibiotic might be inserted "in, the chest near, the bomb head of the harpoon. This would get it into the mammal earlier still.

Contrary to much popular assumption, most of a whale's body is one giant muscle. Studies have been made of the whale's pituitary gland to try to learn how and why the mammal grows so large and so fast. The whale's front flippers, used for steering, are vestiges of feet.

The blue whale, mightiest of them all, grows to over 100 feet in length and can weigh up to 150 tons, possibly more. By comparison, the prehistoric dinosaur weighed a puny 50 tons.

Dental college plans tabled in Legislature

Plans for a \$1,350,000 dental college that would graduate 30 dentists and 15 dental hygienists yearly with an annual operating cost of \$246,250 were contained in a report tabled last week (January 31) by the minister of education, Hon. W. C. Miller.

The report by Dr. K. J. Faynter of the University of Toronto who was appointed by the Manitoba Government to study the dental situation in the province, also recommended that post-graduate studies be included at the college. At present there is no dental college between Toronto and Edmonton.—The Carlton News, Steinbach, Man.—Feb. 8, 1957.

Sweet Treat

And so easy with fast-rising Fleischmann's Active Dry

Yeast... a treat that will bring demands for "more, please!"

Honey Bun Coffee Cake

1. In an 8-inch square cake pan, melt 3 tablespoons butter or margarine. Drizzle with $\frac{1}{2}$ cup honey and sprinkle with $\frac{1}{2}$ cup broken salted nuts.
2. Scald $\frac{1}{2}$ cup milk. Remove from heat and stir in $\frac{1}{2}$ cup honey, $\frac{1}{2}$ teaspoon salt, $\frac{1}{4}$ cup shortening. Cool to lukewarm.
3. In the meantime, measure into a large bowl $\frac{1}{2}$ cup lukewarm water, 1 teaspoon granulated sugar

- and stir until sugar is dissolved. Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast. Let stand 10 minutes, THEN stir well. Stir the lukewarm milk mixture and 1 well-beaten egg $\frac{1}{4}$ cup vanilla into the yeast mixture. Sift together one 2 cups once-sifted all-purpose flour, $\frac{1}{2}$ teaspoon ground cinnamon.
- Sift dry ingredients into yeast mixture and stir until well blended—about 1 minute.
- Spoon mixture into prepared cake pan. Cover. Let rise in a warm place, free from drafts, until doubled in bulk—about 1 1/2 hours. Bake in a moderately hot oven, 375°, about 35 minutes. Turn out of pan immediately. Serve warm.

Needs no refrigeration

(An official department of the Canadian Amateur Sport and Physical Fitness Development Service)

By Lloyd Percival

Are women fitter than men?

According to information collected by Sports College during a national study of fitness completed in 1966, women definitely appear to be fitter than men in Canada.

Tests have shown that she is considerably fitter than the average male until she reaches her 40's. Then her fitness level begins to recede.

The reason for the difference ap-

pears to be that the average woman gets more exercise. While the husband is sitting at a desk or driving a car, she is polishing floors, washing, walking up and down stairs, waiting to the store, keeping track of the children and all the other many chores common to the housewife.

After the age of 40, however, her physical activity begins to drop. Her children are grown up and are helping around the house; the husband has increased his income and provided mechanical devices which make her physical load lighter, and perhaps she even hires some domestic help. Where- as she used to walk to the shopping center, she now has her own little car to move about in.

The fact that women generally do get more exercise, however, may be one reason why fewer women suffer from heart disease than men.

Is boxing a good fitness developer?

We are occasionally asked if boxing is a good sport for youngsters to develop their fitness and strength. The answer to this one, as far as we are concerned, is no. Although we do recommend that every boy should learn how to box sufficiently well to take care of himself and destroy any fear of combat, we do not recommend it as a regular activity.

Of all the personal combat sports, wrestling is by far the best. Though it builds the body efficiently, develops agility and creates a physical toughness, it does not expose the body to serious injuries, as does boxing.

Home nursing course offered by Civil Defence

Local Civil Defence plans were formulated at a meeting of the Hanna Civilian Defence Committee last week under the chairmanship of H. B. Clarke. Present to address the gathering were Miss Lois Kremer, Consultant and Assistant Director of Provincial Civil Defence Services, Edmonton, and J. W. Stewart, staff officer Control Zone Headquarters, Calgary.

Starting Friday, February 15, home nursing classes under the auspices of the Hanna Civil Defence organization will be held in the basement of the Memorial Hall—The Herald and East Central News, Hanna, Alta.—Feb. 14, 1957.

ORIGIN OF NAME

The name of Kicking Horse Pass in the Rocky Mountains owes its origin to the fact that a geologist named Dr. Hector, first white man to use the pass, was kicked by his own horse during the crossing.

Brazil is the largest country of South America.

The next 25 years

Forecasting the future is admittedly an inexact science and probably no one would admit that fact more readily than the five commissioners who have recently made public the preliminary report of the Royal Commission on Canada's Economic Prospects. But the study has been objective and thorough and its forecasts of what Canada may be like in 1980 are at least an unprejudiced projection of past and present trends.

On the matter of population the report states that if net immigration (that is, the excess of immigrants to Canada over emigrants from Canada) averages 75,000 persons annually, Canada's 1950 population will be 26,650,000. The number of Canadians that will be living in cities, towns and villages with more than a thousand people will be 21,010,000; rural population will be 5,640,000.

In the labour force there will be a larger proportion of women, a smaller proportion of young people, and a larger proportion of the over-65 age group. Farm employment will actually drop—the estimate is from 817,000 persons to 735,000 persons—although volume of production per farm will increase by 85 percent. Further mechanization and better land use is the key to this seeming paradox. Manufacturing employment is expected to increase from the present figure of 1,362,000 to 2,363,000.

Output per man-hour in agriculture is expected to increase at an average rate of 3 percent each year until 1970, from then until 1980 at a slightly reduced rate. Output per man-hour in business is expected to increase 100 percent. The total value of all goods and services produced by all Canadians (Gross National Product) is expected to increase from the present \$17.4 per capita to \$2,859 per capita. The average Canadian's net paying income tax in 1980 is expected to have a net income for his own use about 65 percent higher than in 1956.

The trend that runs through the whole text of the report is the factor of population growth and the influence on Canadian prosperity that will flow from the larger domestic market. As the cities and towns expand, and with more people at work in factories and shops and offices, the market for the foods and industrial raw materials produced by the farmer will grow. Similarly, as the whole population grows, the market for the goods and services produced by factory workers and all other industrial employees will expand.

One pretty dress with two fashion looks

This charming apple blossom dress with ladylike button-on apron is made from a versatile Anne Adams Printed Pattern that every mother should have in her pattern collection.

The little girl's dress pattern comes with two sleeve versions and also a low or high neckline. It can be used to make a sun dress or a Sunday dress, a school dress or a party frock. Because directions for laying out the pattern on fabric, cutting and sewing the dress are printed on pattern parts, sewing is easy as can be. For the dress, shown above, our Pattern Designer chose a pretty pink print in Bates Corazelle combined cotton woven with Avisco rayon. She made the apron of solid pink Corazelle and trimmed it with pink rick-rack and matching pearl buttons. This fabric launders nicely, stays fresh and new looking too.

Our Printed Pattern 4717 comes in Children's Sizes 2, 4, 6, 8 and 10. Size 6 dress with high neck and sleeves requires 1 1/4 yards of 45-inch Corazelle, and the apron requires 1 1/4 yards.

Send Thirty-five cents in coins for Printed Pattern 4717. Send to:

Anne Adams Pattern Dept.,
Department P.P.L.,
60 Front Street W., Toronto

Be sure to write plainly your Name, Address and Pattern Number.

City wins top awards Fire Prevention Week

Reflecting credit on the co-operation of people of Swift Current and the activities of Chief R. H. Horne and his staff is the announcement of awards made in connection with Fire Prevention Week as sponsored by the National Fire Prevention Association of Canada.

Swift Current placed first in "C" division cities of population 10,000 to 25,000 for Saskatchewan, and also got Honorable Mention in "C" Division for the whole of Canada. The only cities to get this mention for Saskatchewan were Swift Current and Regina—The Sun, Swift Current, Sask.—Feb. 6, 1957.

LARGEST FOREST FIRE

Largest known forest fire was the one which swept over 3,000,000 acres and caused the loss of 160 million "branded" lums, but rather on cheaper qualities.

Some deep sea fish have organs that generate a cold light.

Funny and Otherwise

A drunk was wobbling along the street when he walked into a telephone pole. Feeling the pole up and down he started working his way around it until he had made a complete circle back to where he started. Then he sat dejectedly down on the sidewalk.

"Snooze," he said resignedly. "I'm fenced in."

The job application form included a question, "Have you ever been arrested?" On the following line, for the benefit of those whose answer was "yes," was the question "Why?"

One applicant answered the first question, "No" and, after the second, wrote "Never got caught."

"What would you do if you had had five dates with a man and he had never attempted to kiss you?" asked one coed of another.

"I'd lie about it," was the prompt reply.

A lawyer travelled to Regina for an important case, promising to wire his partner the moment a decision was announced. At long last the wire came, and it read "Justice has triumphed." The partner wired back: "Appeal at once."

Hubby sneaked home in the fading hours of the dawn to find his spouse right there at the front door to greet him. "Well," she snorted. "So you've decided that home is the best place after all!"

"I don't know about that," he replied. "But it's the only place open."

A boy's voice changes when he becomes a man, and a girl's voice changes when she becomes a wife.

HOISERY PRICES MUST RISE

Canadian women can expect to pay a little more for nylon hosiery this Spring.

Manufacturers of some brands of hosiery are notifying retailers of this fact now and are being careful to point out that this is the first increase in six years.

Actually, nylon hosiery costs less now than six years ago, but increased costs of yarn, machinery, packaging materials, etc., are forcing a rise, which should be noticed in stores about Easter.

Price increases will be small and likely will not be on most nationally known "branded" lines, but rather on cheaper qualities.

Many places in Holland are 15 feet below sea level. 3258

SINCERELY YOURS...

(The following letter, passed on to The Journal by a reader, appeared in a recent edition of the Elmira, N. Y., Advertiser, and is an appeal to motorists at a time when the season for pleasure driving is about to get under way).

Dear Driver—
A few weeks ago I saw a little girl struck by a car as she tried to cross the street. I saw a far-her race toward her and hold her to him as she struggled in the agony of death. I saw all the plans that had been made for her dashed and I saw the look of despair that came over his face. I could only offer a prayer that such a thing might never happen again.

Today, my daughter, who is six years old, started off to school. Her cocker spaniel, — whose name is Scott — watched her leave and whined his belief in the folly of education.

Tonight we talked about school, she told me about the girl who sits in front of her, a girl with yellow curls and about the boy across the aisle who makes faces; about the teacher who has eyes in the back of her head; about the trees in the school yard and the big girl who does not believe in Santa Claus.

We talked about a lot of things—tremendously vital and unimportant things.

Now, as this is written, she is sound asleep with her doll 'Paddy' in her arms.

When her doll gets broken or her finger cut or her head gets bumped, I can fix them. But when she starts across the street— then, Mr. Driver, she is in your hands.

Much as I wish I could, it's not possible for me to be with her all the time. I have to work to pay for her home, her clothes, her education.

So, Mr. Driver, please help me look out for her. Please drive carefully. Please drive slowly past schools and at intersections. And please remember that sometimes children run from behind parked cars.

Please don't run over my little girl.

With deepest thanks for whatever you can do for her, I am,
Very sincerely yours,
(Signed) FATHER.

Jubilee Auditorium Programs

Mr. Ralph Moore, chairman of the Alberta Jubilee Auditorium management committee announced today details of Dedication programs which have been arranged for Edmonton and Calgary during week of April 28 to May 4.

Entertainment which will appeal to every taste has been included in the program drawn up for presentation at the new Provincial Jubilee Auditoriums in Calgary and Edmonton by the respective Allied Arts Councils of each city.

Symphony, ballet, musical reviews, drama, opera, barber-shop quartets, pageants and presentations by some of Alberta's ethnic groups have been included for the six days following dedication Sunday, April 28.

In addition to evening performances, matinee presentations are scheduled four times in Edmonton and five in Calgary.

Monday night in Edmonton will feature Betty Jean Hagen, formerly of Edmonton. This talented young violinist will be heard with the Edmonton Symphony Orchestra under the direction of Lee Hennes. Allied Arts Council representative for the evening will be Mrs. F. W. Mills of the Edmonton Symphony Society.

Miss Hagen's Calgary appearing will take place Wednesday, May 1, when she will perform in the Southern Alberta auditorium with the Calgary Philharmonic Orchestra, under direction of Henry Plukker.

Monday night in Calgary will be "Choral Night" with Harold Ramsey as Allied Arts Council representative. Featured artists, however, will be Canada's two premiere dancers of the Ballet, Lois Smith and David Adams, of the National Ballet Company of Canada and well-known to TV audiences. Choral groups taking part will be the Excelsior Glee Club, the Crescent Heights Glee Club and the Calgary Choral Society.

Lois Smith and David Adams will perform in Edmonton's Tuesday program, designated "drama day". Representing the AAC for this program will be Miss Bette Anderson.

person. Included is a matinee performance of Shakespeare's "Midsummer Night's Dream", directed by Don Pin. The matinee begins at 2:30 p.m.

The same program will be presented at the evening performance beginning at 8:15 p.m.

Ethnic groups take the stage for Calgary's two presentations Tuesday, April 30. Matinee is at 2:00 p.m. and evening performances at 8 p.m. The ethnic production is titled "Parade of Nations". Stars of this program are Goya and Matteo, who will present "A World of Dancing". Goya and Matteo are the world's foremost exponents of the art of ethnic dancing, including in their repertoire authentic dance sequences from Scotland, Spain, India, Ceylon, Italy and many other countries.

Their program includes solos and duets. The Allied Arts Council representative for Calgary's ethnic program will be Bruce Leyden.

Goya and Matteo will take part in Edmonton's two Wednesday performances. Bert Pettigrew represents the Allied Arts Council for these afternoon and evening presentations with Caroline McNeill directing the program. In addition to the dancers and ethnic presentations this program will feature Canadian-born film star, Jack Carson, as master of ceremonies, assisted by Connie Towers and the Weire Brothers.

Born in Carman, Manitoba, Jack Carson today is one of Hollywood's top "triple threat" men by virtue of a successful Broadway run in "Of Thee I Sing" and two rigorous seasons of television and night club bookings. Singing and dancing have become firmly established in his repertoire along with a new sympathetic character that replaces the brash and brassy know-it-all that once was Carson's forte.

A native of Whitefish, Mont., Miss Towers' vocal and comedy offerings have become a part of Jack Carson's own show. She originally sought an operatic career but her strong flair for musical comedy could not be denied.

Connie Towers is a graduate of the Juillard School of Music and the American Academy of Dramatic Arts. She made her New York debut

but at the Versailles in a miniature Broadway musical. She has made several television appearances.

Harry, Herbert and Sylvester — the Weire Brothers — constitute one of the most riotous and amusing comedy teams in show business today. Born in Europe and with a background of ballet study, they have performed at Radio City Music Hall, The Roxy, Latin Quarters, Royal Palms in Miami, Casino in Havana, and the Coconut Grove in Los Angeles. They have been in seven motion pictures with Bing Crosby and Bob Hope, most famous of which was "Road to Rio".

Their latest triumphs have been in the television field, appearing with Bing Crosby on his TV show and on Ford Festival and the Ed Sullivan show.

Connie Towers, Jack Carson and the Weire Brothers will also appear on Calgary's Friday matinee and evening programs. Also featured at the matinee will be the Western Canada Light Opera Company in a presentation of "Pandora", under direction of Mrs. Bessie Gibb.

Other attractions in the evening will be a program of light classics directed by Robert Gibb, the Calgary Chorus and Orchestra, Trudy Carlyle and the "Choral Bells".

Wednesday's matinee in Calgary will have Gertrude Dimpie as the Allied Arts Council representative and will feature the Coldale Little Theatre, Norma Piper with an operatic interlude, and the Lethbridge Little Theatre.

Thursday afternoon in Calgary, the Allied Arts Council representative will be Betty Gibbs and the accent will be on ballet.

Included are David Adams and Lois Smith, the Calgary Junior Ballet Corps and Joy Camden's "Canadian Ballet School".

Thursday evening in Calgary, Clarence Newcomb will be Allied Arts Council representative for the Calgary Drama League's offering of "As You Like It".

Matinee and evening performances on Saturday conclude Calgary's dedication week program. Allied Arts Council representative for the afternoon will be Mrs. R. G. Paterson, who will introduce the Calgary Junior Theatre's offering of "Midsummer Night's Dream" and the Calgary Junior Ballet Club and the Mount Royal Symphony.

Saturday evening with Gordon Gibb representing the Allied Arts Council feature barber shop choruses and quartet numbers, a trampoline act, the Junior League "Rockettes" and Jack Carson, Connie Towers and the Weire Brothers.

Thursday in Edmonton will be "revue day" with a matinee and evening presentation. Local entertainers taking part will be under the direction of Jack Unwin and Dasha Goody, with Mrs. Muriel Harris as Allied Arts Council representative. Mr. Carson will m.c. and Miss Towers and the Weire Brothers will take part in these two shows.

Friday evening in Edmonton Blisset's opera "Carmen" will be presented under the direction of Ray Phillips with Karl Norman as guest vocalist. Allied Arts Council representative for the evening will be Mrs. J. Carmichael.

Edmonton's program winds up Saturday with "Jubilee Day". At the afternoon performance Edgar Williams will conduct the Edmonton Junior Symphony Orchestra, and Bette Anderson will direct the Edmonton Children's Theatre.

The final performance, Saturday night, will feature a two-part program under direction of Jack McCreath. Part one will depict the history of Edmonton and Northern Alberta during the years 1900 to 1939 and part two will sketch colorful events from 1945 to the present.

During the entire week exhibitions will be on display in both auditoriums. In Calgary, paintings, rare books, historical lithographs, photography, handicrafts and the sculptures will be shown.

Edmonton's displays will include handicrafts, visual arts, weaving, ceramics, leather work, copper tooling Indian displays and Eskimo art.

Chairman of the Provincial Jubilee Auditoriums management committee is Ralph R. Moore, deputy minister of economic affairs. The members of committee are: The Hon. Russell Patrick, minister of economic affairs; W. H. Kaasa, J. E. Piewes, R. D. McLean, E. S. Bryant, J. L. Patterson, H. A. Webster and J. T. McCreath.

Red Cross Will Assist Tracing Immigrants

The Canadian Red Cross Society is co-operating with the International committee of the Red Cross in maintaining a registry of all Hungarians who have come to Canada since October.

This Red Cross service is designed to assist these immigrants in communicating with relatives and friends in all parts of the world, obtaining health and welfare reports and facilitating the ultimate re-union of families separated by the recent conflict.

The information received from Hungarian immigrants is for Red Cross purposes only and is strictly confidential. No information will be divulged to an enquirer without permission of the person being traced. This is in accordance with a strict Red Cross policy covering operation of its enquiry bureaus throughout the world.

Hungarians are urged to file this information at any Canadian Red Cross branch in Canada where special cards for this purpose are now available.

The Red Cross anticipates this information will be most valuable in years to come as it will be the only permanent record of immigrants whereabouts.

The Red Cross Enquiry Bureau handles hundreds of enquiries each year and in 1956 was successful in tracing more than 300 missing persons.

(Editor's Note: In Alberta during the past year 102 enquiries were received at Division Headquarters with 33 of the missing persons traced. There were 46 other persons located for residents outside the province and during the first three months following the Hungarian revolt 110 enquiries from Hungarians were forwarded to national headquarters of the

Red Cross. There were also 30 telegrams and messages received from refugees in Austria, eastern Canada and the U. S. for Alberta residents.)

Quarterly Meeting Of P. T. A.

The quarterly meeting of the Parent-School Association for Exceptional Children was held in Red Deer on March 18.

Mr. Taylor, educational psychologist, gave the second in a series of addresses relative to the program of the school.

A very interesting demonstration of a sense training class was held.

The draw for the play-house, that was to be held December 8, 1956, was postponed to take place at the school's Christmas concert.

Mr. Geoffrey White of Red Deer was the very lucky winner. His small boys will have the most popular club house in the province.

The Parents and School wish to thank all those who helped in this worthy effort by purchasing tickets, as the total realized was the most gratifying sum of \$1622.

It will help considerably in the building of another cottage at Gull Lake and has already bought a TV for another one of the wards at the school.

Dr. LeVann stated that he hopes to have the boys build a bigger and better play-house for future fund-raising projects. This will serve a two-fold purpose. It will be a means for the Parent-School Association to provide extra benefits for these children and in having a share in the effort, providing most of the children with valuable occupational therapy.

Production Creates Wealth

THAT'S WHY it is good business policy to encourage and support local industry.

THE MORE people there are employed locally, the more home-owners there are, the more benefit there will be for everyone.

PEOPLE EMPLOYED locally pay taxes —they buy from local stores—they help to create business.

BUSINESS is not a one-way street—it is built by co-operation, good will and a progressive outlook.

BUY FROM stores that make every effort to serve you by buying goods and services advertised in

Jehovah's Witness officials protest to U. S. S. R.

Charging, that Soviet officials "may perhaps be found fighters actually against God," a strongly-worded letter of protest from officials of the Watch Tower Bible and Tract Society, legal governing body of Jehovah's Witnesses, has been sent to Premier Nikolai A. Bulganin of the U.S.S.R.

Mr. W. L. Krish, presiding minister of the Coleman congregation of Jehovah's Witnesses, in announcing the contents of the letter cited the wholesale arrests and mass movements of Jehovah's Witnesses to slave labor camps in Siberia.

"For many years now," Mr. Krish quoted the letter as saying "Jehovah's Witnesses within the Soviet Union have endured great difficulties and heavy persecution. They have constituted committees and delegations from among their own ministers for the purpose of registering their religious organization according to the statutes in force, but on each occasion they have been rebuffed and instead of being allowed to register their Christian organization, they have had ministers in the delegation arrested."

The letter was written to accompany a composite petition that had been adopted over a period of nine months by a total of 462,936 of Jehovah's Witnesses meeting in 159 assemblies throughout the world. It called attention to the 7,600 Jehovah's Witnesses known to be in slave camps in the Soviet Union, and, requesting their release, proposed that a delegation be permitted to proceed from the Society's headquarters in Brooklyn, New York, to Moscow, to fully acquaint the Soviet government with the true aims and purposes of Jehovah's Witnesses.

"We have acted only in good faith," Mr. Krish said. "Following the petition's adoption at each assembly, copies were sent by registered mail direct to Moscow and a copy for the Russian Embassy in each country was delivered in person. Most of the ambassadors would not see us," Mr. Krish reported, "but we were able to talk to some Soviet diplomatic officials. To date, the Soviet government has completely ignored our petitions."

"Furthermore, when a copy was offered to the embassies many of the Russian officials refused to accept it, not even wanting to touch it, as if it were dynamite. Others insisted that many lies had been circulated about Russia and openly scoffed at the mention of the name of Jehovah God and claimed that the law of Russia was higher than the law of Jehovah, and that it had to be obeyed in Russia."

In spite of all these deliberate rebuffs, the Watch Tower Society's letter assured Premier Bulganin that Jehovah's Witnesses will stand ready to send their delegation to Moscow for discussions proposed in the petition.

"Maybe their hearts will be hardened against us just as Pharaoh's was many centuries ago when Moses was sent to Egypt to demand the freedom of Jehovah's chosen people so that they could worship Him without interference," Mr. Krish said. "But even if the Communists continue to arrest our ministers, as they are doing in the USSR and most of the Satellite countries, Jehovah's Witnesses must — and will, with the help of Jehovah — continue to live Christian lives and worship the Most High."

Asserting their purpose was to inform the world of the bitter Christian persecution that still rages behind the Iron Curtain, Mr. Krish revealed "A full report is being published in the April 15th issue of The Watchtower, official magazine of Jehovah's Witnesses. This issue will have a stepped-up world circulation of 10,000,000 copies in 45 languages, which is three times normal circulation. Plans are being made by Coleman congregation of Jehovah's Witnesses to call at every house in the Pass and the surrounding area with this significant report."

Coal Policy Is 'Disgraceful'

(Courtesy Calgary Herald)
By Dick Snell
(Herald Political Reporter)

EDMONTON — Describing the federal coal policy as "disgraceful," Highway Minister Gordon Taylor led an attack in the legislature on Canadian coal policies Thursday.

The coal decision arose on a

private member's motion calling on the federal government "to take immediate action to assure a larger share of the Canadian market to Canadian producers."

A motion by Opposition leader J. Harper Prowse and seconded by Hugh John MacDonald (Liberal-Calgary) tossed the ball back to the province by asking the legislature to recommend to the provincial government "that they institute and adequately support a research program to discover and encourage economic use of our coal resources."

Markets Available

Speakers were Mr. Taylor, William Kovach (Social Credit Pincher Creek - Crownest) who moved the original motion; S. J. Hillman (Social Credit - Sedgewick) who seconded it; Mr. Prowse; Abe Miller (Liberal - Edmonton); while J. C. Landeryou (Social Credit - Lethbridge) adjourned debate.

Mr. Taylor said there were "tremendous markets" for coal as shown by the fact Canada imported 16,000,000 tons from the U. S. for one year.

Only time Ottawa gave consideration to Alberta coal miners was during a war when it became necessary to increase production and miners were frozen in their jobs or taken out of the armed forces.

Liberal Promise

If the coal industry was so important in wartime, it was hard to see why it was so unimportant in peace time. Liberal arguments were based on the promise markets are declining and when the Opposition leader seeks to defend federal coal policy "he is really scraping the bottom of the barrel."

Mr. Kovach said he had written Milton E. Gregg, federal minister of labor, requesting help for Alberta coal and was told "there is hope that a solution may eventually be found."

Alberta miners had been living on hopes for many years and the only security they enjoyed was during the war. "In times of peace they are forgotten men."

A Superior Coal

Coal produced in his constituency was bituminous suitable for industrial purposes and did not deteriorate when stockpiled. He said U. S. coal was not superior.

Alberta has 50 per cent of Canada's bituminous coal reserves and it was "a shame" the nation imported 24,000,000 tons of U. S. bituminous coal in 1956. He saw the coal industry as a national asset with an Alberta investment of \$60,000,000.

The provincial government had done a good job rehabilitating miners out of work but if more miners leave the Pass, the mines will shut down. Federal imports were "a crime" as the federal government received \$7,111,245 on duties charged imported coal last year.

1955 Import

Mr. Hillman said the retail value of all coal imported into Canada in 1955 was \$6,000,000. He wondered what effect this money would have had on Alberta's economy if the coal had been produced here.

The Liberal leader said he had no objections to selling coal anywhere but it was simpler and more convenient fuels which had brought the decline in coal markets as it had for the draught horse market.

By 1980 coal would come into its own again, he predicted, and the industry had nothing to fear from atomic power. Coal will be required in the petro-chemical and other industries when oil and gas have run out.

(Res A.M. Given)

The federal government was helping the Alberta coal industry, Mr. Prowse said. Last year it paid \$8,400,000 in freight rate subventions or \$2700 for each Alberta miner. This money was paid to keep the mines in operation so production could be increased in times of emergency.

While this was happening, he said the Alberta government was "throwing around \$11,000,000" on an oil and gas royalty dividend. They had the "nerve and impudence" to ask other people to do without propane and natural gas, to put up with bigger fuel bills.

"Just so that the member from Pincher Creek can be popular in his constituency."

Mr. Miller said the Social Credit motion was making the coal industry "a political football". He slighted the support of the resolution if the provincial government was taking any action to assist the coal industry.

Blaming Someone Else

The resolution was blaming someone else for the province's own shortcomings, and asking Ottawa to do something the province

was not doing. The legislative building, the new auditoriums and other major government buildings used gas, not coal, for heat because it was more convenient.

If the industry were prepared to sell coal on the eastern market at a competitive price then markets would be available, he contended. "What you're saying is, stop the import of U. S. coal so we can sell at high prices."

THIRD STRAIGHT WIN—Delta Upsilon Fraternity won the annual McGill University snow-sculpture contest for the third straight time by defeating 17 men's fraternities. The St. Bernard dog's head is complete with traditional keg around its neck. Another prize in the Winter Carnival feature went to Sigma Chi's Firefly, which kept flashing snow off its tail light.

ESTEVANSIA . . . A PERSPECTIVE OF PROGRESS—A new mode of living came to Estevan during the past year, bringing with it certain problems to plague local government circles, but at the same time, giving a temporary solution to one of the town's greatest-of-all problems—housing. Two large trailer courts were established and both were filled before they were completed. This corner of one of the courts shows that trailers, like houses, can reflect the owner's individuality through varying styles and designs. Homemaking in a trailer is a sort of capsule form of homemaking in a house. Among the other routines, there is washing to be done.

SNOWY VALENTINE—Ever go to a formal Valentine party in wives and girl-friends. Left to right above are Driver Frank Davies of Winnipeg; Flight Sgt. H. K. Arnold, Hagersville, Ont.; Mrs. C. W. Lewis and Sgt. First Class Lewis of New York, U.S.A.; Mrs. F. A. Ruthford, Port Arthur, Ont. In the sleigh are Mrs. Pete Kattler and her guests' party as Canadian and U.S. servicemen picked up their.

—National Defence Photo.
A Virden, Man., militia unit, the 12th Manitoba Dragoons, ran away with the McLeod Challenge Trophy in the 44-rink ninth annual military bonspiel at Kenora, Ont., last weekend. They won out over rinks from both regular and reserve army, navy, and air force stations in Manitoba and Ontario. Here they are above, left to right: Lt. D. C. M. Elliott, Virden, skip; Major Hugh Sinclair, Virden, third; Lt. A. J. Armstrong, Hargrave, second and Capt. J. A. Dowsett, Minnedosa, lead.

KNOTTY PROBLEM—Patrolman Don Murphy finds this totem pole a close-mouthed witness. After hauling in the 8-foot, 400-pound wooden sculpture, thought to have been abandoned, police were informed by a woman that it was intended for her garden but had been delayed in transit.

"ELECTRON 125"—Model Nancy Dolen, 23, holds tape from "Electron 125" an electronic computer which predicted the measurements of the ideal Miss America of 1970. Nancy, who measures up to the 1970 Miss America is 13 years ahead of her time. Vital statistics turned out by the computer forecast Miss America's height, five feet seven and a half inches; weight, 120 pounds; bust, 35½ inches; waist, 24 inches; and hips 35½ inches.

\$2,000,000 DIAMOND—This ice-blue diamond, weighing less than an ounce and priced at \$2,000,000 is held by Edna Rae.

Grenfell druggist receives honour certificate

In recognition of outstanding and exemplary service to further the advancement of pharmacy while a member of the council of the association, Mr. E. R. Neely has received a certificate of honour from the Canadian Pharmaceutical Association.

J. C. Turnbull, secretary-manager of the association, in his covering letter, says "Your devotion to the profession of Pharmacy as exhibited by your interest and active participation in the affairs of our local, provincial and national associations is sincerely appreciated."—The Grenfell Sun.

Alcohol education gratifying

Public response to Manitoba's alcohol education program has been very encouraging. Professor R. N. Halstead reported this week. Professor Halstead, chairman of the Manitoba Committee on Alcohol Education, which is breaking new ground in the adult field, said there were many indications that the public has been reading and acting upon the committee's advertisement and publicity program, begun last September. —Carillon News, Steinbach, Man.—Feb. 15, 1957.

Fashions

Needle favorite

by Alice Brooks

Swedish weaving—a handicraft favorite—it's so easy, fascinating to do! Seven different designs in this pattern—add color to pillows, aprons, towels, baby bibs.

Pattern 7307. Charts, directions for 2 baby motifs; 5 borders that can be used in variety of widths.

Send forty cents (40c) in coins (stamps cannot be accepted) for this pattern. Write plainly: Size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept., Department P.P.L., 60 Front Street, W., Toronto

Two FREE Patterns—printed in our ALICE BROOKS Needlecraft book—stunning designs for yourself, for your home—just for you, our readers! Dozens of other designs to order—all easy, fascinating hand-work! Send 25 cents for your copy of this wonderful book right away!

ITCH STOPPED IN A JIFFY

or money back

Very first use of soothing, cooling lotion D.D.D. Prescription positively relieves raw red itch—caused by eczema, rashes, allergic irritation, chafing—other itchy troubles. Glycerine, stearine, 39¢ trial bottle must satisfy or money back. Don't miss. Ask your druggist for D.D.D. PRESCRIPTION.

Now Many Wear FALSE TEETH

With More Comfort

PASTERTE, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and drink with ease, use PASTERTE. Just sprinkle a little PASTERTE on your plates. No gummy, goopy, sticky taste or feeling. Checks plate odor (denture breath). Get PASTERTE at any drug counter.

Quick, Easy Way to Shrink Painful Piles

Here is a nice, clean, easy way to get real relief from the nagging distress of swollen, painful piles. It's the convenience of ointment, pipe pipes or suppositories. The secret is in taking just one small Hem-Rid Tablet, with two or three times a day. Works through effective INTERNAL action. Quickly eases constipation, relieves itching, soreness and pain. Helps shrink piles and permits them to heal. Why suffer needlessly when Hem-Rid gives you so much. Get a package today. See for yourself how nice Hem-Rid is to use. How effective it is and how much more comfort it will quickly bring you. All drug stores. Low cost. Money refunded if you are not 100% pleased.

Editorials

from Canadian Weekly Newspapers

A new bonanza

(The Progress, Winkler, Man.—Jan. 9, 1957)

Canada's new uranium industry looms as a high-ranking enterprise among the country's great mining projects.

The fact that this industry will employ some 12,000 persons with an annual payroll estimated at \$60,000,000 may surprise Canadians. Our uranium resources have been a military secret since uranium materials became important to atomic energy work following the Second World War.

Now that Canada's vast uranium reserves have been made public, there are indications that the uranium mining industry eventually will stand second only to gold mining, which in 1955 employed some 18,032 persons with a \$63,361,744 payroll.

This year, Canada is expected to produce its first uranium metal, from the crown-owned Eldorado Mining and Refining Ltd. plant at Port Hope, Ont.

So far, uranium mining has been concentrated in northern areas of Ontario and Saskatchewan and the Northwest Territories. But Canada's uranium reserves have been hardly touched.

The reserves are estimated at 225,000,000 tons. The uranium content of this ore is some 237,000 tons, which means Canada has enough uranium to meet domestic requirements for the next two decades.

Individuals urged to use labor pool now...

(The News, Maple Creek, Sask.—Jan. 31, 1957)

Large and small commercial establishments planning renovations or repairs to their offices, plants or stores in the near future can help the unemployment situation by doing them now.

Many firms in the past have begun alterations in the spring or summer when the demand for tradesmen and building materials is greatest—causing delay, inconvenience and added expense.

If firms planning alterations would start them now during the winter months, many otherwise unemployed workers would be assured of a job and the firms would be helping greatly to fight and counteract the annual hazard of winter unemployment.

Individuals can help too by making any repairs and renovations to their homes immediately instead of waiting until the Spring. Housewives can assist by hiring domestic help to aid with heavy chores.

An all-out attack on this problem would result in a considerable reduction in winter unemployment.

Speak softly, but carry a big stick...

(The Mail, Drumheller, Alta.—Jan. 30, 1957)

Man can be happy that good will has spread as much as it has in the world, but it isn't difficult to be somewhat gloomy about man's yester-years that produced the international passions and devastating weapons which loom threateningly.

However dark a picture is drawn, there is the reassuring knowledge that the human race has survived all previous eras of darkness and gloom and emerged into succeeding periods of enlightenment. That is because there is enough capacity for good deeds in the race to face any situation.

Soviet's food production plans

Between 1955 and 1960 the USSR proposes to increase production of meat by 100 percent, of milk by 95 percent, eggs by 154 percent and wool by 82 percent, states a report from the Food and Agriculture Organization of the United Nations at Rome.

The Soviet government, says FAO, plans to bring about this increased production through such measures as changes in agricultural planning, increased mechanization and greater state investment in agriculture. More authority will be given the federated republics and local administrations. State investment in agriculture will be increased from 13,000 million rubles per year under the fifth five-year plan, 1951-55, to 24,000 million rubles per year during the sixth five-year plan, 1956-60; the increase to be earmarked exclusively for the State's machine and tractor stations, the State farms (as distinct from collective farms) and for produce-collecting services.

Tractor production is to be increased to 322,000 annually in 1960 from 163,500 in 1955; combines to 140,000 from 48,000; windrowers to 50,000 from 2,500 and other agricultural machinery by 62 percent. In addition over the five-year period 250,000 corn pickers are to be made available.

The FAO review says the cultivated area in the Soviet Union increased between 1953 and 1955 by about 29 million hectares (about 71 million acres) with about 20 million hectares sown to grain for livestock.

Surveying the history of Soviet agriculture since the war, FAO concludes that agricultural production had reached greater levels for some branches by 1948, even passing those levels for grain and cattle, but the quotas for the fourth five-year plan could not be met in 1950. In 1952, a year in which weather was unusually favorable for agriculture, production was only 10 percent higher than in 1950. Industrial production increased by 123 percent over the same period.

Soviet stock-raising, hard hit by the war, recovered fairly rapidly between 1945 and 1948 but then expansion slowed down and by the end of 1952 livestock population was actually down 4 percent from 1951. As one result the sixth five-year plan did not set any figures of stock population for 1960 but merely called for considerable expansion of stock-raising on the State and collective farms.

Station wagon for Game Association

February 8 was a red letter day for the Manitoba Game and Fish Federation, when F. J. Schlinger, president of the St. James-Winnipeg Brewery, handed over the keys of a brand, spanking new ranch wagon to Dr. H. S. Purdie, federation president. This donation was made in appreciation of the work done

by the federation in promoting conservation and to assist the secretary-manager, Paul Murphy, in extending the Game and Fish activities beyond the present 58 active localities. —The Carillon News, Steinbach, Man.

More than 100,000 babies are born each year in the United States with no medical attention of any kind. 5238

HOUSE TREE—Charles Heltzer likes this tree so well that he couldn't bear to part with it when he built a new wing on his home. The two-foot trunk of the towering tree comes right through the roof of the addition.

Strictly Fresh

When caught by her father necking with a strange young man on the back porch, the daughter came up with a brand-new alibi a few minutes later. "I couldn't help myself, Pa," she explained. "He's a big weather man, and said that if I didn't kiss him, he'd name a hurricane after me."

A lady called the producer of TV thriller series and said, "What a wonderful program you had last night! Please tell me how it turned out."

"What happened?" asked the producer sympathetically. "Did you set go out of kilter at the wrong moment?"

"Oh, no," said the lady. "The set's fine. I just fell asleep."

A successful author of children's books met one of his devoted readers at an autographing party recently. She was a pretty miss of eight, and when he gravely shook her hand she inquired, "Did you really write all those books yourself?" He modestly assured her that he had indeed. Then she demanded, "How did you get the lines so straight?"

A skinny lad, weighing 150 pounds or less, turned out for the first football practice of the year at his college last fall, but soon thought better of his impulse. "I didn't mind it at all," he reported, "till one bruiser grabbed my left leg, another my right leg, and the first one said to the other, 'Make a wish!'"

Customer in a London chemist's shop was called back at the door by the proprietor who explained, "I'm afraid I've given you styrene instead of quinine." "What's the difference?" jibed the customer. "Fourpence!" said the proprietor.

End brakeman to head end trainman

OTTAWA.—Around newspaper circles here in Ottawa they are calling it the Royal Commission on Featherbedding. It is not really a gay affair; it is a serious matter to Canadians in all parts of the country. This is the famous hearing that rose out of the nine-day railway strike called by the Brotherhood of Firemen and Enginemen in January, a special commission made up entirely of judges and headed by Mr. Justice Roy Kellock of the Supreme Court of Canada. This is the hearing Prime Minister St. Laurent promised would be so impressive that public opinion would practically force both sides—the Brotherhood and the Canadian Pacific Railway—to accept the findings of the judges. The railway has already announced it would accept the judges' decision whatever it be; the union simply refuses to do so. In fact union officials have openly talked of the possibility of resuming the strike when the deadline rolls around in October—crop time.

If public opinion is going to have any effect on the union's decision it will need the facts, and here are some that have popped up in the first days of this special hearing.

Canadian railways are gradually switching over to diesel locomotives to increase their efficiency, save operating costs and keep the nation's freight rates from climbing right up to drop of freight. The CPR proposal to drop firemen from diesel locomotives in light service and yard service will make it possible to save about \$11,500,000 in operating costs each year when the dieselization program is complete. This is about one-third of the company's revenue from hauling Western grain.

Diesels, of course, don't need firing. They fire themselves.

Even the Brotherhood admits this. Their lawyer David Lewis told the Commission that firemen were "understandably reluctant" to believe that they had become useless but said they were deeply concerned with the safe operations of trains.

This "safety factor" seems to be the main argument of the union. It was the one thing they hollered about during the strike. The picture they present, and it involves some grisly talk about accidents, is that of a fireman who doesn't stoke fires but spends most of his time helping the engineer to keep a look-out.

Covering this type of argument the railway counsel, Ian Sinclair told the judges:

1. Passenger trains are not even being considered in this proposal.
2. Freight trains already have an extra man to help keep a look-out. The head-end brakeman rides in the cab of freights for this purpose. (Presumably at present the firemen on a freight diesel is helping the brakeman to help the engineer to look-out.)
3. In yard service the locomotive move at very slow speeds and are

28,000 Rats die in Alberta during 1956

Twenty-eight thousand rats died in Alberta during 1956. The rats' appetite was their undoing. They swallowed over five tons of Warfarin and Pival cereal-type baits and 3,840 quarts of water bait containing these poisons. As a consequence rat infestations in Alberta were wiped out by eight percent reports J. B. Gurba, Assistant Supervisor, Pest Control, Alberta Dept. of Agriculture.

During the year some 492 premises in the province were infested. At the end of 1956, of the 2,773 farms inspected in the infested area along the Saskatchewan border only 89 farms showed rat evidence.

The general area of infestation has been reduced at the north and south ends, he added. Several colonies were wiped out at Spadine in Twp. 57 and no reinfestations have appeared north of the North Saskatchewan River. In the south, Townships 9 to 12 were also cleaned out during the year. The present infested area extends from the North Saskatchewan River to Twp. 13 in the Schuler area. Rats are mostly confined to Ranges 1 and 2 12 miles west of the Saskatchewan border. The invasion has been held all along the line and pushed back in most districts.

There is much credit due to residents along our eastern border who have co-operated with municipal and government officers in the war against rats said Mr. Gurba. With continued vigilance, Albertans can remain free of this ancient and expensive pest—Hanna Herald, Alberta.

controlled by signals of a ground crew, so there is no job here for a diesel fireman, not even as a safety look-out.

One point lawyer Sinclair has made clear. The fact that firemen are not needed on diesels, he says, is not the fireman's fault. "He has tried to find work to occupy his time. Today he may be trying harder than ever. He tries to keep busy. Firemen as a class on Canadian Pacific are and have been loyal members of the operating team—they would like to be able to earn their pay. Without any fault on the part of the fireman, the diesel has made him a fifth wheel—unnecessary to safe and efficient railway operation as the evidence will show."

He asked that the union be not allowed to block technological progress with make-work rules—"out-and-out featherbedding." "Unnecessary costs must be eliminated to protect the jobs of the large body of Canadian Pacific employees and to maintain Canadian Pacific as an efficient transportation agency."

"Unnecessary costs," as one bystander noted, have a habit of turning up in the form of freight rates. And \$11,500,000 is quite a sum.

GREATER GAIN

The United States population gain in the past eight years is more than a third greater than the population of Canada.

Jane Ashley Says

"Corn Starch Makes Tasty Entrées!"

SCALLOPED FISH

- 3 tablespoons MAZOLA Salad Oil
- 2 tablespoons finely chopped onion
- 2 tablespoons BENSON'S or CANADA Corn Starch
- 1 teaspoon salt
- 1 teaspoon sugar
- 2 cups tomato juice
- 1 bay leaf
- 2 medium onions, sliced
- 2 pounds fillets (cod, halibut or haddock)

PLACE MAZOLA Salad Oil and chopped onion in small saucepan.

COOK slowly about 3 minutes or until tender but not browned.

REMOVE from heat; stir in BENSON'S or CANADA Corn Starch, salt and sugar blending well.

ADD tomato juice gradually then bay leaf; mix well.

COOK over medium heat until thickened and boiling; stir constantly.

BOIL 1 minute then remove from heat; keep sauce hot.

COOK sliced onions in small amount of water; drain and place on bottom of 1½-quart greased casserole.

WIPE fillets with damp cloth; cut into servings.

PLACE on top of onions; pour tomato sauce over mixture.

BAKE in hot (500°F.) oven for 10 minutes or until cooked.

YIELD: 6 servings.

COLEMAN PHARMACY
Coleman Alberta

I'm in a big hurry to get to the Coleman Pharmacy before all those lovely

Easter Novelties and Cards are all sold.

The Coleman C.G.I.T. girls attended a rally in Lethbridge on March 30, accompanied by their leader Mrs. L. Mascherin. They had a very good opportunity to meet the girls from Southern Alberta and report having a wonderful time and all are looking forward to the next rally.

Miss Pearl Ballak entertained 16 of her Grade 12 girl friends on April 8th, the occasion being her 18th birthday. After an evening of entertainment the girls sat down to a delicious supper served by her mother, the table being centered with a beautifully decorated birthday cake, all joined in singing "Happy Birthday". The gift to the honored guest was a zippered Leather Covered Travelling Clock the presentation being made by Miss Doreen MacQuarrie. Miss Ballak in a few well chosen words thanked her friends for the lovely gift.

Friends are glad to see John Salus up and around again after being laid up for a few days with the flu.

Mayor F. Aboussaty and Mr. J. Ramsey have returned from Edmonton where they were part of a delegation that presented a brief on the situation of the coal mines in the Pass.

Richard Tiffin, employed at Swift Current, Sask., was guest at the home of his parents, Mr. and Mrs. R. Tiffin over the week-end.

James Smith, working at Banff, was a visitor at the home of his parents at the week-end.

Donald (Sonny) Hardy and Alex Kinneare have accepted positions with a construction company at Banff. They left to take up their duties on Monday.

Capt. and Mrs. E. A. Fontana and family were week-end guests at the home of the latter's parents, Mr. and Mrs. J. Rogers.

Mr. Percy Dickenson of Calgary, formerly of Coleman, attended the 50th anniversary banquet of the Masonic Lodge Friday evening.

Mr. and Mrs. J. Bayon and daughter Joan, of Lethbridge, were week-end guests at the home of Mr. and Mrs. J. Rogers.

Mrs. E. Gill and grand-daughters, Diane and Rosemond Hibbert of Pincher Creek, are welcome guests at the home of Mr. and Mrs. A. Phillips.

Mr. and Mrs. George (Sonny) Hoggan are the proud parents of a daughter, Wendy Louise, born in Prince George, B. C., on Thursday, April 4.

Mrs. Leland Jacobson of Calgary visited her parents, Mr. and Mrs. J. Dick last week.

Mr. and Mrs. K. Blain of Kimberley were guests of the latter's parents, Mr. and Mrs. J. Nash over the week-end.

Mrs. Kay Bohle has returned to her home at Fort Macleod after having been the guest of her son and daughter-in-law, Mr. and Mrs. R. Bohle for several weeks.

Nell Chalmers, attending the Convent school in Pincher Creek, was a visitor at the home of his parents, Mr. and Mrs. J. Chalmers at the week-end.

John Hanrahan and his friend David Griffith, attending Convent school at Pincher Creek, were guests at the home of the former's parents, Mr. and Mrs. J. Hanrahan last week-end.

Friends and relatives called at the home of Mrs. J. Moore on Thursday to wish her many happy returns on the occasion of her birthday.

Mrs. J. McQuarrie was called to Pincher Creek on Saturday due to the illness of her father, whom we regret to report passed away Sunday morning.

Mrs. W. Smith was the lucky winner of an electric iron on the Five Roses Homebakers show on CPN on Friday.

Mr. and Mrs. O. Celli have returned home from Rochester Mayo Clinic where Mrs. Celli underwent a medical examination.

Friends wish Mrs. Mary McKinnon a speedy recovery. She is a patient in the Crows Nest Pass Hospital.

Cancer Crusade Is Underway

A call to join forces against mankind's cruellest enemy is being sounded throughout Alberta this week as the Canadian Cancer Society's annual educational and fund-raising Crusade gets underway. The month-long drive has an objective of \$300,000 with which the Society will carry on its three-fold program of Research, Education and Welfare.

The provision of funds to carry on scientific research into the causes of, and cures for this dread disease is the Society's main function. The Society itself does not own or operate laboratories. From the funds raised during the Cancer Crusade, grants are made to the National Cancer Institute of Canada, which is the professional body charged with the responsibility of conducting and co-ordinating cancer research throughout Canada. Last year the Institute sponsored six basic research projects at the University of Alberta.

The centre of cancer research in Alberta is the Dr. John S. McEachern Cancer Research Laboratory located in Edmonton.

Last year 41 projects were underway involving equipment and techniques as modern as the 'atomic age' itself. The Society contributed \$22,000 towards the maintenance costs of this laboratory. Advances although seemingly slow are being made. An all-out research attack is going on against cancer — it is now a matter of time.

While research will ultimately provide the answer — a cure for cancer — lives are being saved today by the Society's public health education program. People are going to their doctors for prompt treatment. Statisticians estimate that 8,000 fellow Canadians were saved from the disease last year; but the sad fact is another 8,000 might have been saved if they had seen their doctors in time.

Officials of the Society point out that the best form of cancer insurance is a knowledge of the 'seven danger signals' which may mean cancer; and a thorough health examination once a year. This message of hope is circulated by radio and television announcements, film showings, public meetings, pamphlets and exhibits at country fairs.

Welfare services to the cancer patient are designed to save lives and relieve or minimize suffering caused by disease. These services may take the form of free cancer dressings, transportation to cancer clinics and treatment centres, housekeeper service and drugs and medication.

Without funds no attack could continue against this killer. Last year through the generosity of Albertans over \$289,000 was raised. This year the need is even greater to provide money for research; to save lives through public education; and to relieve the sufferings of a cancer patient. During April, which is Cancer Control Month, everyone has the opportunity of fighting back at cancer with a check-up and a cheque.

REVEALS CHARACTER

The chain of life is forged with little rings — each word and act forming a part of it.

The International Committee of the Red Cross is the traditional intermediary in time of conflict. The ICRC was founded almost 100 years ago.
